Hey what's up cosmic groove babies! We're looking for signs of intelligent life, here to call you back to a conscious state. The meaning of parties has been lost. Our culture has forgotten the intent behind what underground or sub-culture means. It is not about starting the new fashion trends, its about bringing people together for a purpose beyond material and physical means. Its about creating our own society, uncontrolled by white politicians, a tribe, for one purpose, to celebrate life, instead of being enslaved by it. 'Until we realize this we will keep allowing ourselves to be controlled.

Parties have a great meaning. Hundreds of kids coming together peacefully under one roof, to dance and evolve with the music, riding the flow of the energy in sound. The D.J.'s playing the role of the shaman-- putting themselves into the music, to take their dancers on a journey outside space and time. Us, creating positive vibes knowing everyone around you is for the same purpose as you. We are slowly starting to evolve ourselves and along with this we start we start to understand the true meaning of life and how far away Western Civilization is from it.

Since we are starting to understand it and know it is true it is our responsibility to come together to let everyone know what is really happening in the world. Now is the time to break to break away from the aboveground chaos and start an underground revolution.

We are one another, the more we come together the higher we with evolve. The more evolved we become the more understanding we will achieve. Evolving is what human beings are all about- that is what is kept from society. This is why it is us, this generation who is chosen to understand. The sixties tried but it wasn't time yet. We need to start coming together, using our resources, teaching our truth, and perhaps eventually jumpin' and pumpin' to another dimension with a group of people who understand one universal truth.

Please don't forget we're all pieces in this 3-dimensional world and we can create any reality we want. Its not about the hype or fitting in, its about individuality within a conscious group. Instead of bringing ego, bring self, there should be no judgment here. Accept your brothers and sisters, we're all cosmically connected.

If you know this to be truth, look for us. We'll be looking for you. We'll know each other by the twinkle in our eyes.

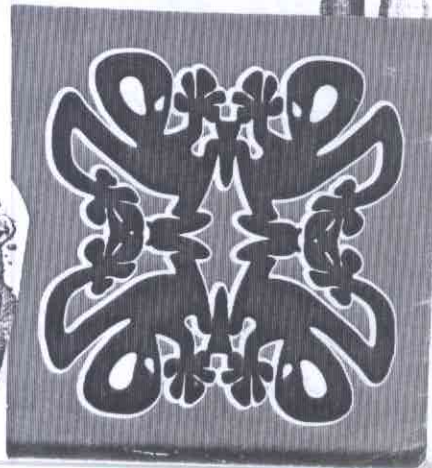

We'll be droppin' you more knowledge in the future, so keep your eyes open.

Start lovin yourselves so we can start loving each other. We're running out of time man, nobody's gonna do it but us. We're the last chance, so get up, shake your booty, and dance. Quit frontin', be real and together let's get blunted!!!

**THE MANY FACES OF X**

Dr. Robert Paul, M.D., M.P.H., author of *Ecstasy*, says that users who are experienced with the drug are more likely to have a good time. For users who are new to the drug, the experience can be very different. For example, the drug can be very stimulating, but it can also be very sedating. Many users report that they feel a sense of euphoria, but they also feel a sense of detachment from reality. Ecstasy can cause a wide range of physical effects, including increased heart rate, increased blood pressure, and increased body temperature. Ecstasy can also cause a sense of euphoria, but it can also cause a sense of detachment from reality. The effects, however, are temporary and disappear once the drug is metabolized. The effects, however, are temporary and disappear once the drug is metabolized.

**WHAT?!! NO SIDE EFFECTS?!!**

Many people will tell you that Ecstasy has no side effects. This is based on the fact that Ecstasy is a stimulant and it does not have any of the side effects of other drugs. However, there are many side effects of Ecstasy, including increased heart rate, increased blood pressure, and increased body temperature. Ecstasy can also cause a sense of euphoria, but it can also cause a sense of detachment from reality. The effects, however, are temporary and disappear once the drug is metabolized. **MORE! MORE! MORE!**

As with most drugs, Ecstasy has a number of side effects. These include increased heart rate, increased blood pressure, and increased body temperature. **BREAKTHROUGH 3.9.96 - Soul**  
 What a concept, first party: BREAKTHROUGH, and it was all that. David, Mike, and Meghan know very well the pro's and con's. Five Seasons Center ballroom-carpeted floor, small dance floor with moderate sound, local DJs were from QC, Cedar Rapids, Iowa City-and to top the bill, Afroman, The night couldn't even compare to the afterhours. So much music, so much social butterflying. Virgin space was the key and Karma lives strong and loud. G.S.

**THE PHOENIX 3.30.96 - Family Productions**  
 Another party at smile. Great space for the number of people attending. The line up consisted of all the QC locals. Props to Scottie Miller. His scratchin' got the crowd nice and hyped. Small comfortable parties like this one should be felt more often.

**Radikal Fear 4.6.96- the radikal fear tour**  
 The Chicago scene is not something for the weak. These kids straight-up get down. Nothing but pure satisfaction at this party. A great vibe, roomy well-ventilated space, and PHAT DJs. The house was bumpin' so it was all good. A.A.

On the 23rd of March, Vibe Alive and Vibeonauts joined together again to bring us 21st Century featuring Rab bit in the MOON. Upon entering the Dolton Expo Center everyone was warned of undercover and was told that anyone caught transporting, holding, or otherwise involved with drugs and/or look-alike substances would immediately be prosecuted. Of course, the people who came for those reasons didn't even bother to go in. For those of us who came to get down and have a good time, it didn't phase us in the least. As far as friendly staff and security, there was alot to be desired. I know, I know, Its not the most important thing, but hey, when there are security guards greatly resembling Andre the Giant trying to slam doors up in your face, you don't soon forget it. In addition to the massive unfriendly staff, the bathrooms were flooded by 3:00 AM and of course, there were clean, dry, unused bathrooms on the other side of the venue but noone was allowed to use them unless they were sick. Aside from all this, the highlight of the evening was definately Rabbit in the Moon. This was entertainment like no other. The music itself was an emotional roller coaster, not to mention the intense vitual stimulation provided by Bunny. This was without a doubt one of the most moving performances that I have ever experienced. Everyone who was a part of this was transcended beyond the bathrooms, the gigantic-door slamming- freaky-smelly(I'm bitter) security guards. We were transcended to a level wheren none of this was of any importance. Even though the vibe was somewhat seperated throughout the hight, one thing was certain. During that performance we were one entity driven by a common exstasy which we call music. The oter performances thumped as well. They included Chicago's Halo, Gene Farris, Mystic Bill, Rush, Detroit's own Kikoman and also from Tampa Florida DJ Monk. They all kept the floor bumpin'. Allin all I would say this was a good party despite the minor downfalls. If you missed 21st Century and didnt experiance Rabbit in the Moon, I highly reccomemd travelling to go see it! You won't regret it!

props to those who are real
